

Pacific Gas and Electric Company
Energy Efficiency Rebates for Your Business

Business Computing Rebate Catalog

Saving energy for a brighter future

Customers may be eligible to participate in Pacific Gas and Electric Company's (PG&E) Demand Response Incentive programs. Refer to www.pge.com/demandresponse for the requirements and guidelines of these programs or call the **Business Customer Service Center** at **1-800-468-4743**.

Carefully read the specifications below to ensure that you are installing qualifying products. All PG&E incentives apply towards the purchase of new or replacement energy-efficient equipment. Used or rebuilt equipment is not eligible, and customers must include proof that the appliances meet all the required energy efficiency specifications. Please note that funding for these programs is limited and available on a first-come, first-served basis until allocated funds are exhausted or the program ends, whichever comes first. This program may be modified or terminated without prior notice, and additional terms and conditions apply.

For our most up-to-date catalogs, please visit www.pge.com/businessrebates.

Plug Load Occupancy Sensors

(Power strip or plug-in outlet cover with built-in occupancy sensor)

The plug load occupancy sensor is installed in an office or cubicle to control the office equipment and task lighting when the space is unoccupied. The sensor, plugs and switches are mounted in a single unit which can control power to devices such as computers, printers and task lamps.

Requirements:

- Only passive infrared and/or ultrasonic detectors are eligible.
- Plug load sensors must control electricity using equipment in offices or cubicles, including shared copiers and/or printers.
- Installation address must have a commercial electric account with PG&E.

Rebate Code	Description	Rebate/ Unit Measure
L65	Plug Load Occupancy Sensors	\$15/sensor

Network Desktop Computer Power Management Software

Requirements:

- This rebate is for control of desktop computers only.
- In order to qualify for this rebate, customers must install qualifying software which can be found on the list at www.pge.com/powermanagementsoftware. Please note that some software is only compatible with specific operating systems.
- Installation must allow centralized, server-level control of the power management settings (sleep mode and shutdown) of the desktop computers on a distributed network.
- The software must have a reporting feature that allows monitoring and validation of energy savings.
- Customers must agree to keep the software installed and operating for a period of five years from the initial installation date.
- A printed copy of a report generated directly from the installed network power management software must be included with your application that shows:
 - The location (installation address) of desktop computers that are being controlled by the system.
 - The number of desktop computers that are being controlled by the system, grouped and totaled by each location.

- Qualifying software must result from one of the following:
 - A new installation, where none previously existed.
 - An upgrade of an operating system or other network support software where the desktop computer power management function did not previously exist.
- To be eligible customers must allow PG&E onsite access to their site to verify:
 - The installation of the software.
 - The location of the installed control software (at the server level).
 - The number of desktop computers controlled by the system.
- Installation address must have a commercial electric account with PG&E.

Exclusions:

This rebate does not apply to software that controls laptops or laptop stations.

Rebate Code	Description	Rebate/ Unit Measure
M03	Network Desktop Computer Power Management Software	\$15/desktop computer

More ways for your business to save money.

Looking for more information on PG&E rebates and incentives for your business? Visit www.pge.com/businessrebates to access the latest rebate information and catalogs. If you are ready to apply for a rebate, you can download an application at www.pge.com/businessrebates. You may also apply online and check the status of your rebate(s) through PG&E's eRebates at www.pge.com/mybusiness/erebates.

PG&E offers a wide range of tools and resources at www.pge.com/mybusiness/energysavingsrebates that can help your business save energy and money and help the environment, such as:

- Sign up for Automated Benchmarking Service at www.pge.com/benchmarking, so that you can use the ENERGY STAR® Portfolio Manager to track and compare your facility's energy performance over time.
- Use PG&E's audit tools to identify options for saving energy and money at your facility, and get started on developing a comprehensive energy management plan.
- Find a suite of customized incentives for retrofitting outdated, inefficient equipment, as well as incentives to optimize existing equipment through retrocommissioning.
- Explore PG&E's Demand Response programs, which offer incentives for managing your energy use during times of peak demand.
- Check out PG&E's incentives for solar, wind and fuel cell self-generation equipment, if you're considering generating your own electricity.

You may also learn more about these programs, tools and offers by contacting your local PG&E Account Representative or by calling our **Business Customer Service Center** at 1-800-468-4743.

Ready to get started with your next project and need the help of a contractor? Find local vendors who participate in PG&E's Energy Efficiency Rebates for Your Business Program at www.pge.com/tradeprodirectory.
